When **returning** to the site, input your **email address** and your **password**, and then click **“GO”**

First Visit

To **register** for the **first time**, click on **“SIGN UP”** and fill out the form.

The screenshot shows the American Scientist Online website in a Windows Internet Explorer browser window. The browser's address bar displays the URL <http://www.americanscientist.org/about/page/welcome>. The browser's menu bar includes File, Edit, View, Favorites, Tools, and Help. The toolbar shows the Google search engine, a search bar, and various utility icons like Bookmarks, 438 blocked, Check, AutoLink, and AutoFill. The website's header features an advertisement for ORIGIN (originlab.com) with the text "Perform data analysis". Below the advertisement is a registration form with the label "MY AMERICAN SCIENTIST" and two input fields, one labeled "email". To the right of the input fields are "GO" and "SIGN UP" buttons. A search bar with the label "SEARCH" is also present. The main content area displays the "American Scientist" logo, the tagline "The Magazine of Sigma Xi, The Scientific Research Society", and a navigation menu with links for "Current Issue", "Past Issues", "On the Bookshelf", "Science in the News", "About", "Subscribe", and "Advertise". A "Welcome!" message is displayed, along with a "Welcome to the new, redesigned American Scientist Online" notice. A sidebar on the right contains a "Subscribe to American Scientist" advertisement and a section titled "IN THIS SECTION" with links for "About American Scientist", "American Scientist Permission Policy", and "Request Permission to Copy for".
