

**Grants-in-Aid of Research Awards**  
**October 15, 2014 Grant Cycle**

Alphabetical by Recipient's Name

<b>Recipient's Name</b>	<b>Field of Research</b>	<b>Location: Institution</b>	<b>Study Title</b>
<b>Alexandria Albers</b>	Behavioral Ecology	North Carolina: Appalachian State University	Proximate endocrine determinants of behaviors that facilitate rapid range expansion of aggressive tree swallows
<b>John Arnold</b>	Conservation Biology	Virginia: Old Dominion University	Assessing Quality of Atlantic Flyway Stopover Sites for Migratory Landbirds Using Plasma Metabolites
<b>Theresa Barosh</b>	Ecology	Colorado: Colorado State University	Photosynthesis in Herbivory and Plant-Mediated Indirect Interactions
<b>Anja Bastian</b>	Cell Biology/Biochemistry	Oklahoma: University of Oklahoma Health Science Center	Identification of Intracellular Protein Target(s) for a Novel Anticancer Drug, AG311
<b>Sweta Batni</b>	Cell Biology/Biochemistry	District of Columbia: Georgetown University	Using Surface Plasmon Resonance (SPR) to Identify Potential Novel Chemotherapeutics Targeting Methyltransferase Enzymes in Giardia lamblia
<b>Susannah Betts</b>	Physics/Astronomy	Connecticut: Wesleyan University, Connecticut	Spectroscopy of Laser-Induced Plasma in Hydrogen and H <sub>2</sub> O
<b>Jay Bhatt</b>	Cell Biology/Biochemistry	Alabama: University of Alabama at Birmingham	Molecular mechanisms regulating vesicle formation for protein transport
<b>Shreyas Bhawe</b>	Cell Biology/Biochemistry	Texas: University of North Texas Health Science Center at Fort Worth	Role of DNA methylation in the Glucocorticoid Receptor (GR)-Mediated Corticotropin Releasing Hormone (CRH) Down-regulation.
<b>Swapan Bhuiyan</b>	Cell Biology/Biochemistry	Texas: University of North Texas	Isolation, characterization and comparison of novel bacteriophages from various Streptomyces spp.
<b>Allison Bieda</b>	Petrology/Geochemistry	California: California State University-Fullerton	The Nature of Carbon Isotope Covariation in Neoproterozoic to Cambrian Strata of Sonora, Mexico
<b>Joe Brague</b>	Cell Biology/Biochemistry	Pennsylvania: Lehigh University	TrkB is Essential for Male Sex Behavior in the Syrian Hamster

**Grants-in-Aid of Research Awards**  
**October 15, 2014 Grant Cycle**

<b>Recipient's Name</b>	<b>Field of Research</b>	<b>Location: Institution</b>	<b>Study Title</b>
<b>Macey Brandeberry</b>	Cell Biology/Biochemistry	Ohio: University of Findlay	Investigation on the Effects of bitter melon juice on the growth of leukemia cells
<b>Bryan Braneky</b>	Cell Biology/Biochemistry	Missouri: Saint Louis University	The Persistence of Glutathione-deficient Group B Streptococcus Inside Immunocompromised Mammalian Immune Cells
<b>Christopher Bridgeman</b>	Conservation Biology	Florida: Florida Institute of Technology	Sequestration of Excess Nutrients in the Indian Rover Lagoon through the use of Bio-platforms
<b>Alexander Brittingham</b>	Anthropology	Connecticut: University of Connecticut	The Effect of Heating on Stable Oxygen and Carbon Isotopes in Tooth Enamel
<b>Leanne Burns</b>	Conservation Biology	South Carolina: Clemson University	Investigation of Winter Bat Assemblage and Activity
<b>Peter Cabeceiras</b>	Cell Biology/Biochemistry	Texas: Rice University-Texas Medical Center	The RAC1 P29S Hotspot Mutation in Melanoma Confers Resistance to Pharmacological Inhibition of RAF
<b>Lacey Campbell</b>	Behavioral Ecology	Ohio: Miami University Ohio	Contest behavior between an invading spider and a local congener over unfamiliar webs and web sites
<b>Allan Castillo</b>	Systematics/Evolutionary Biology	North Carolina: Duke University	Evolutionary Novelty Arising Through Gene Duplication
<b>Rahul Chib</b>	Cell Biology/Biochemistry	Texas: University of North Texas Health Science Center at Fort Worth	Non-invasive fluorescence polarization based detection of melanoma.
<b>JINYOUNG CHOI</b>	Physiology/Functional Morphology	Ohio: University of Cincinnati	Developmental Regulation by Thyroid Hormone Receptor $\alpha$ in <i>Xenopus tropicalis</i>
<b>Natalie Christian</b>	Ecology	Indiana: Indiana University - Bloomington	Why are leafmining and endophytic fungi negatively associated?
<b>Haley Christians</b>	Behavioral Ecology	Texas: St. Edward's University	Testing the novelty hypothesis as a mechanism of heterospecific mating in livebearing fishes
<b>Angela Chuang</b>	Behavioral Ecology	Tennessee: University of Tennessee-Knoxville	Personality-driven range expansion in an invasive spider, <i>Cyrtophora citricola</i>

**Grants-in-Aid of Research Awards**  
**October 15, 2014 Grant Cycle**
